

## Hypersonics Manufacturing Research Internship

Expand your research skills and knowledge this summer at Oak Ridge National Laboratory (ORNL), the world's premier research institution.

- Undergraduates
- US Citizens
- 3.0+ GPA

### DETAILS

- FULL-TIME
- ON-SITE
- PAID WORK, PLUS ROOM AND BOARD

Using advanced preform manufacturing and processing, ORNL aims to open the design space, decrease production time, and decrease costs. Improvements in the manufacture of carbon and ceramic matrix composites will help advance hypersonics research.

### AREAS OF FOCUS

- HYPERSONICS MANUFACTURING
- HIGH-TEMPERATURE COMPOSITES
- ADDITIVE MANUFACTURING

**APPLY NOW**
